

Strategic Partners Network:

- Your school receives access to the entire network of Strategic Partner schools on our STEP webpage
- You are given a Strategic Partner school (same grade & education profile) that will work with your school to answer questions and guide you as you start up your business
- Your Strategic Partner has provided a Virtual Field Trip for your students
- Upon completion of the Virtual Field Trip, you can schedule a live, online Q&A session with your Strategic Partner school (Teacher & Students)

After operating your STEP business for one school year you can apply to become a Strategic Partner School.
