## **IMPORTANT PRINTER REMINDERS:**

- Your printer needs to be plugged in and powered on at all times.
- Using your printer is better for your machine than not. The ink has to stay flowing through the machine so it doesn't dry out.
- Not choosing the correct media settings can make your printhead go faster.
- Call us if you ever get an error code.
- Don't take the printhead out of the printer!
- Use the correct Media Settings when printing.
- Media Settings:
  - Matte Paper – Matte Coated 170gsm
  - Glossy Paper – Photo Glossy 170gsm
  - Charlie Adhesive – Water Res Adh Matte PP
  - Banner Vinyl - Synthetic
